-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 25 January 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-13, drawn to a method of making a bone substitute material.

Group II, claims 14-19, drawn to a method of making a bone substitute material.

Group III, claims 20-39, drawn to a method of making a granular bone substitute material.

Group IV, claims 40-50, drawn to a granular bone substitute material.

Group V, claim 51, drawn to a bone substitute material having a breaking stress of more than 1 MPa.

Group VI, claims 52-61, drawn to a method of forming a bone graft.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: All the groups are directed to an article and a process useful in the general field of the bone substitute material. Group I has a special technical feature directed to a distorting the shape of the foam material not required for Groups II-VI. Group II has a special technical feature directed to a elongated shape of the cells not required for Groups I, and III-VI. Groups (III and IV) have a special technical feature directed to an open cell structure, each occupying a space of less than 1000 mm<sup>3</sup> not required for Groups I, II, V and VI. Group V has a special technical feature directed to a material having a breaking stress of more

than 1 MPa not required for Groups I-IV and VI. Group VI has a special technical feature directed to a implanting step not required for Groups I-V.

The inventions listed as Groups III-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 20 is anticipated or obvious over WO 03/026714. As the recited structure does not make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.

A restriction letter is deemed necessary because the requirement for restriction is complicated and requires three more groups.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai Vo whose telephone number is (571) 272-1485. The examiner can normally be reached on Monday through Thursday, from 9:00 to 6:00.
